TECHNICAL PROJECTS

Guess the Number | JavaScript, Node.js

- Custom web-based one-player Guess the Number game. Created from scratch using JavaScript and Node.js.

Server Blog | Javascript, Express, Node, Postman

- Web-based server with full CRUD functionality. Used Express, Node, Postman and MongoDB to build and test server CRUD functionality.
-

PROFESSIONAL EXPERIENCE

Software Development Bootcamp Student | Upright Education Parker, CO September 2023-December 2023

- Participated in a 16 week Full time immersive coding bootcamp where I built full stack web applications with a 3.0 GPA.

Cash Application Analyst | Karcher North America; Aurora, CO June 2022 - September 2023

- Responsible for managing financial transactions up to \$1M daily in lock-box and \$200k in credit cards
- Reconcile the sub ledger daily and accurately matches customer's remittance with invoices

Corporate Account Analyst | Colorado Center for Reproductive Medicine; Lone Tree, CO March 2021 - June 2022

- Managed billing for 5 clinics with a monthly revenue of \$2M
- Reported trends in processes at each clinic and assist with resolutions and implementation of new processes all while decreasing aging revenue by roughly \$100K-\$200K a month
- Presented detailed analysis of reimbursements to VP of Contracting and Revenue Cycle
- Audited billing and ensured services were authorized and coded accurately

Administrative Assistant | Columbus Light and Water; Columbus, MS July 2020 - March 2021

- Finalized billing and maintained records of delinquent accounts for customers
- Reconciled and prepared band deposit for approximately \$100K in payments and provided teller services as needed

Revenue Cycle Associate | Drayer Physical Therapy; Columbus, MS August 2017 - July 2020

- Reconciled \$2M dollars of electronic payments from insurance
- Appealed denials based upon reason code
